PERSONAL PROJECTS

Numbers Crush [↗](#)

- Numbers Crush is an Android game made with Flutter. It involves dragging and putting the numbers in a place where it can divide its adjacent blocks. It also implements Mobile ads with Google's Admob. It implements sounds, music and support of dual theme (light and dark) to provide more convenience to Player.

MathDoku+ [↗](#)

- MathDoku+ is an Android game made with Flutter. It is a logic-based, combination number-placement puzzle. It contains various levels to workout player's brain. It also implements Mobile ads with Google's Admob. This game implements sounds and music

Weather Check [↗](#)

- Weather Check is web application which uses openweather api to get weather details of a particular location entered by user. The API calling works behind the scenes with the help of AJAX request which gives the feel of SPA application.
